AVSI believes that every human person deserves to be treated with dignity and so works towards development that is sustainable and capable of responding to the real needs of people, by accompanying individuals and assisting them to become the central character of their own development. AVSI invests in promoting civil society organizations rooted in the community; and through partnerships, fosters the exchange of experiences and optimizes the use of resources to open possibilities for development.

Project Background:

AVSI Foundation under the PROSPECTS program with funding from the International Labour Organization (ILO) is implementing the scale-up phase of the Rural Employment Services project in the refugee hosting districts of Isingiro, Madi-Okollo, Terego, and Arua. The project was developed following recommendations of the Comprehensive Rapid Assessment of Public Employment Services in Uganda and an assessment of key occupations and skills conducted by ILO in March 2020 and June 2020. Both assessments revealed an oversupply of skills among the Job seekers offered by many implementing partners and the urgent need to facilitate the transition to meaningful employment. The ultimate goal is to reduce unemployment through the delivery of employment services customized to fit the informal employment context and address the unique demands of the refugee and host community labour market needs.
